# Benefits of miSecure Text Messaging

PRESENTED BY

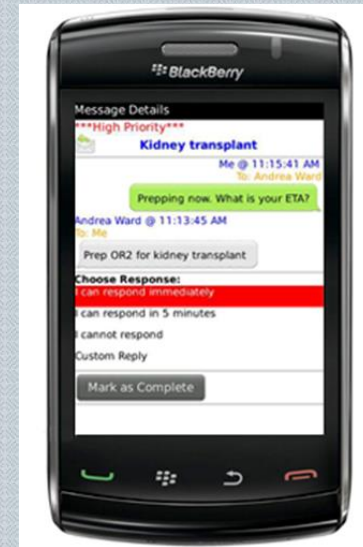

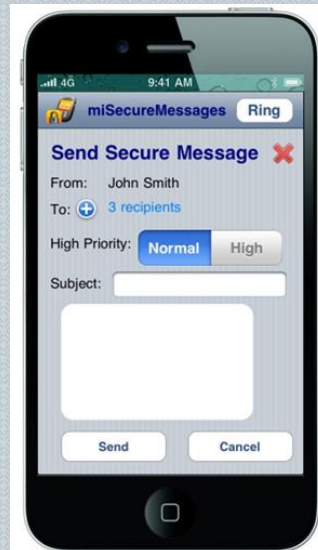

# Hello, Inc

**America's Oldest Telephone Answering Service**

*Since 1923 we have been integrating our products and services to help you better communicate. This is our most recent product.*

# What is miSecureMessages?

- A powerful Smartdevice paging and messaging application built for Android™, Apple® (iPad®, iPhone®, iPod touch®), and BlackBerry® devices.
- Replaces paging technology and enables two-way instant communications using the power of your miSecureMessages App (no text or SMS package needed) to easily reply and organize communications.

# Who uses miSecureMessages?

Any organization that needs their communications to be:

- Secure
  - Immediate
  - Easy
  - Reliable
  - Persistent-alerting
  - Two-way
  - Device-to-device
- Energy
  - Finance
  - Government
  - Healthcare
  - Home and Facility Services
  - Information Technology (IT)
  - Legal
  - Real Estate
  - Shipping
  - Property Management

# Feature Advantages

- **Pager replacement**  
Advanced communications with an App on their smartphone or tablet
- **Interactive**  
Receive and reply to important messages
- **Device-to-device messaging**  
with your colleagues
- **Great coverage**  
using 3G/4G/5G and WiFi
- **Immediate delivery**  
of messages
- **Persistent alerting**  
ensures messages are read immediately
- **Separate inbox**  
from their texts and e-mail messages
- **Quiet communications**  
Eliminate overhead pages
- **Does not use SMS**  
No character limit, no texting fees

# Feature Advantages

- Confidence

that all messages are completely secure (and HIPAA and HITECH compliant!)

- ✦ All data is encrypted
- ✦ No information is stored on their device
- ✦ Access can easily be remotely disabled
- ✦ App passcode feature

- Confirmation of Receipt

It will send an encrypted “message delivery” receipt back to our Telephone Answering Service letting the operators know the mobile device received the message.

***If the acknowledgement of receipt of the message is not received by a preset amount of time, the operators will take other steps to delivery the message.***

# Feature Advantages
